### 27th Helsinki International Film Festival Love & Anarchy

Post: #1

So 27th Helsinki International Film Festival: Love & Anarchy is upon us and Finnish folk made the best trailer for the festival. <http://hiff.fi/en/>

A very own Downfall parody that might be the best yet. Except this time it's about Mannerheim and how he get's pissed.

Unfortunately HFF hasn't released a version with English subtitles so for now only those speaking/understanding Swedish or Finnish can enjoy this.

No Subs.

R&A 2014: Mannerheim kuulee original no subtitles
